Lucknow, UttarPradesh.

August 2023 - June 2025

EXPERIENCE

SquadMinds Private. Limited. | Full Stack Developer

Mohali, Punjab | feb - Present

Hands-on experience in **React.js, Redux, Tailwind CSS, Node.js, and Express.js**. Developed projects with mentor guidance, focusing on frontend and backend development, state management, debugging, and testing. Passionate about building efficient and scalable applications.

SKILLS

Programming Languages: C Programming, C++ (OPPS), Javascript

Libraries/Frameworks: ReactJs, ExpressJs, Tailwind CSS, Node.Js, Redux toolkit, HTML & CSS, Socket.io

Tools / Platforms: VS-Code, Postman, Git & Github

Databases: MongoDB, PostgreSQL

PROJECTS / OPEN-SOURCE

E-Commerce Website | [Link](#)

React.js, Express.js, MongoDB, Stripe API, Tailwind CSS, Redux

Developed an e-commerce website with secure user login using **JWT authentication** and a search and filter feature for easy product discovery. The admin panel allows managing products, including adding, updating, deleting, setting prices, and organizing categories. Users can add products to their cart, and the website features a responsive design for a seamless shopping experience.

DevConnect-Social Network | [Link](#)

MERN Stack, Redux Toolkit, Socket.io, Tailwind CSS, OAuth.

DevConnect is a full-stack social networking platform built for developers to connect, collaborate, and share their knowledge. It allows users to create profiles, post updates, engage with others through likes and comments and receive real-time notifications.

Google Meet Clone | [Link](#)

React.js, Node.js, MongoDB, Tailwind CSS, Redux, ZEGOCLOUD SDK.

This project is a Google Meet Clone built using ZEGOCLOUD for real-time video calls. It allows users to create or join meetings, talk with others using video and audio, share their screens, and chat during meetings. The app is fast, secure, and works on all devices.

School Management Website | [Link](#)

React.js, MongoDB, Tailwind CSS, Node.js, Express.js, EmailJs

Developed a school management website to communication between teachers, students, and parents. The platform also includes features for managing and displaying school notices, news updates, and student results, ensuring real-time information sharing within the school community.
